

From: Circuit Ricardo Tormo

To: All participants of the Series.

We inform all participants that if you are going to use Frequencies you should legalize them. You can do it on your own or through us. If the Frequencies are not legalized, we do not guarantee that there won't be jamming.

The following ranges can't be used as are the ones used by the National Emergency Services:

**452.125-457.125**

**462.125-467.125**

If you are going to legalize them on your own, you can do it through the Telecommunications Ministry. If so, please confirm us that you are doing so. You can find all the information on the next link:

<https://sede.serviciosmin.gob.es/en-us/procedimientoselectronicos/Paginas/listado-procedimientos.aspx>

**Search By SIA code: 215027**

If you wish to do it through the Circuit, please fill in the attached document and send it as soon as possible to: [esther.arce@circuitricardotormo.com](mailto:esther.arce@circuitricardotormo.com) Please find attached the price list.

Thank you for your collaboration.  
Esther Arce
